What is Breakout EDU
What is Breakout EDU?

Breakout EDU is the immersive learning games platform.

Breakout EDU games consist of a combination of physical and digital puzzle elements that must be solved in a set amount of time.

Players of all ages are challenged to open the locked Breakout EDU box using critical thinking, communication, collaboration, and creativity.
How to Play a Breakout EDU Game?

Look around for clues and artifacts that will help provide information needed to figure out the combinations to the locks.

Talk with your group and share what you’re thinking about the clues. You might need to think outside the box in order to break into it.

Test out what you think you know! Try the combinations you think will open up the box. If you’re wrong, think some more and try again.

Remove all the locks from the Breakout EDU kit before the timer runs out to complete the game.
Tips for Success

1. Work together as a team.
2. The better you communicate and collaborate, the more successful you will be.
3. If you solve a puzzle, make sure the rest of your team knows.
4. Come together to review what you know before deciding as a team when to use your hint cards.
Hint Cards

Two hint cards are available when you and your team decide that you are not able to move forward without a little help.

These hints are given to you by the facilitator of the game who is watching and observing the group.

Hints are not answers, just some information to help your group get over a hurdle or see the information in a new way.
Help! An evil scientist has discovered a way to remove the Earth’s magnetic field. Without a magnetic field, the moon will go out of orbit and in 40 minutes it is scheduled to crash into the Earth, ending life as we know it. We have found the evil scientist’s device but we need to open the box containing it and stop the evil scientist’s program to save our earth and the solar system. We need your help! We have already delivered instructions to your instructor.

Please save the earth and our solar system.
We are counting on you!
Official Breakout EDU Timer

Debrief

Breakout EDU doesn't end when the box gets opened. Yes, the game task might be complete at that point, but some of the best magic is what happens during the debrief discussion.

The Reflection Cards include questions suitable for all Breakout EDU games and are used to facilitate a group discussion. The cards can be locked in the Breakout EDU box or distributed after the game concludes.
End of Game Photo

Win or lose, it’s always great to celebrate the learning experience of a Breakout EDU game with a team photo!

We have included some fun signs and/or backgrounds for your photos.
How Can I Breakout in My Classroom?

1. Purchase or assemble a Breakout EDU kit.

BreakoutEDU.com
How Can I Breakout in My Classroom?

2. Register for the games password at BreakoutEDU.com/register
3. Find, edit, or create a Breakout for your class.

BreakoutEDU.com/games

Over 350 games are available for learners of all ages.

Each game includes detailed instructions, printable materials, links, and a setup video.
